

## Consultation Report

### Consultation Subject:

The Ministry of Interior invites the public to share their thoughts on security and legal measures aimed at improving family security and safety. This includes the roles of social and educational institutions, families, and society in strengthening family cohesion.

### Consultation Objective:

The Ministry of Interior aims to enhance family security as the cornerstone of societal protection through this consultation.

### Expected decisions as a result of consultation:

The development of an initiative to bolster family security and safety, promote family cohesion, and foster community values of intelligence and innovation. Additionally, the initiative will focus on improving and facilitating access to government services provided by the Ministry of Interior and other relevant agencies.

#### Summary of Comments:

- Design community initiatives aimed at families.
- Foster joint initiatives between government and private sectors to improve family security and safety.
- Strengthen the role of educational institutions in providing training programs on family safety.
- Leverage modern technology to create platforms utilizing artificial intelligence.
- Launch awareness campaigns on social media to promote family security.
- Offer specialized advisory services to enhance family cohesion and resolve issues.
- Organize community events and activities to strengthen trust, respect, and family bonds.
- Develop procedures to protect children from domestic violence and ensure their safety within the family.

#### Result:

**First:** Organizing a forum titled "*Family Safety: Happiness, and Stability*", highlighting the family's role in enhancing community security and creating a safe environment for children's proper upbringing. This forum aims to foster skill development and instill positive values and behaviors in children. It will feature local experts and specialists discussing three core topics:

- Security and legal efforts in enhancing family safety.

- The role of social and educational institutions in family security.
- The importance of family and society in strengthening family cohesion.

The forum's goal is to improve family security, contribute to family cohesion, promote community intelligence, and introduce government services provided by the Ministry of Interior and other agencies, making them accessible to families.

**Second:** Participating in the launch of educational workshops supporting the "Mawadda wa Rahma" social campaign. These workshops will continue the campaign's objectives by emphasizing the importance of marriage as the foundation of family stability. They aim to encourage youth to have a positive outlook on engagement and make informed choices when selecting a life partner. The workshops will be held nationwide and include community councils, universities, colleges, and government institutions to help shift social behaviors and customs impacting youth marriage decisions.
