

## Consultation Report

### Consultation Subject:

The Ministry of Interior cordially invites the esteemed public to express their views on measures aimed at bolstering community safety in the face of emergencies and inclement weather changes.

### The objective of consultation:

Through this consultation, the Ministry of the Interior aims to assess diverse opinions and proposals concerning the system of procedures and precautionary measures during emergency events and weather fluctuations. The primary objective is to ensure the safety of society, enhance security, safeguard lives, protect property, preserve the nation's achievements and advancements, and provide optimal services to the community.

### Expected decisions as a result of consultation:

Updating the system of procedures and precautionary measures to respond effectively to emergency events and weather fluctuations.

**No. of comments: 55**

**Topics of comments:**

Topic	Awareness	Technology	Legislations and policies	Development of procedures	General comments
No. of comments	8	5	5	32	5

**Summary of comments:**

1. Presenting an official spokesperson to address weather emergencies.
2. Enforcing penalties for reckless violations amid inclement weather conditions.
3. Promoting awareness on road safety and the perils of driving in inclement weather situations.
4. Implementing stringent legislations to address traffic infractions during weather emergencies.
5. Issuing advisories at the location affected by weather emergencies.
6. Utilizing advanced technologies, including artificial intelligence, for early detection of weather emergencies.
7. Mobilizing volunteers, providing qualification and training to a dedicated team assisting during weather emergencies.
8. Implementing a remote work and study system in response to weather emergencies.
9. Halting traffic flow and closing roads during inclement weather conditions.
10. A number of appreciation letters acknowledging the Ministry's diligent efforts.

**Result:**

Through thorough examination and analysis of public opinions and suggestions regarding this request for input, the Ministry has diligently worked towards incorporating enhancements into the traffic laws. These modifications specifically target the safety of society, particularly during emergencies and variations in weather conditions.

The purpose of these amendments is to shore up the initiatives of the relevant authorities in a legal and institutional way, particularly in relation to their preventive actions during emergencies, crises, disasters, and the consequences arising from heavy rainfall and variations in weather conditions. Consequently, adjustments have been incorporated into the articles of the law to reinforce these measures and underscore the critical importance of adhering to instructions and safety protocols.
